# Who is your Superhero?

All of them work to make the world a better place.

What can you do to do the same?

We all work towards making a better world. We study and take care of our family to build a good future for ourselves and our families.

Superheroes build a better future for others- they work for the good of others!

In 1961 Stan Lee created the Fantastic four comic. This was a part of an era of social change and these comics raised awareness of many social issues. They show us how to be selfless without losing ourselves and how to have hope for a better world.

Superheroes inspire us to be better ourselves!
